

JASVANTH S

AI ENGINEER

+91 8098421779 | Coimbatore, Tamil Nadu, India | jasvanth1010@gmail.com | linkedin.com/in/s-jasvanth | github.com/Jasvanth-S | [Portfolio](#)

PROFESSIONAL SUMMARY

AI Engineer with hands-on experience across four internships and three live freelance deployments, specializing in agentic AI systems, Retrieval-Augmented Generation pipelines, and production-ready machine learning applications. Skilled in LangChain, LangGraph, CrewAI, and multi-agent orchestration, complemented by strong FastAPI backend development, data analytics, and full-stack delivery capabilities. Recognized as a Top 23 National Finalist at TNFS, VIT Chennai 2026, for AI-driven fire-station location optimization research. Combines a strong academic foundation in Artificial Intelligence and Data Science (CGPA 8.21) with a proven record of designing, deploying, and scaling end-to-end AI solutions that solve measurable real-world problems.

TECHNICAL SKILLS

Programming Languages: Python, TypeScript, SQL, Bash

AI / ML & Generative AI: PyTorch, Scikit-learn, LLMs, Agentic AI Systems, LangChain, LangGraph, CrewAI, RAG Systems, OpenAI API, Hugging Face, Ollama, Prompt Engineering

Data Analytics & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau

Vibe Full-Stack & Backend Development: FastAPI, React, Next.js, Tailwind CSS, Streamlit

Databases & Vector Stores: MongoDB, PostgreSQL, MySQL, Vector Databases (Pinecone)

Tools & Platforms: Git/GitHub, Docker, VS Code, Jupyter Notebook, n8n, Excel/Google Sheets

PROFESSIONAL EXPERIENCE

Artificial Intelligence Intern

Jul 2025 – Oct 2025

Grow Your Skills, Bengaluru, Karnataka (Remote)

- Built end-to-end AI solutions spanning data preprocessing, model development, and API deployment for Generative AI applications
- Developed LLM-based applications incorporating agentic AI systems and multi-step reasoning workflows
- Designed and optimized data analysis pipelines to support automation use cases

Data Analyst Intern

Aug 2025 – Sep 2025

Besant Technologies, Coimbatore, Tamil Nadu (Remote)

- Performed data analysis using SQL, Power BI, and Python to extract actionable business insights
- Designed interactive Power BI dashboards and reports supporting data-driven decision-making
- Enhanced data visualization clarity, improving stakeholder interpretation of key business metrics

Web Development Intern

Feb 2025 – Mar 2025

Gateway Software Solutions, Coimbatore, Tamil Nadu

- Designed, developed, and deployed 3+ responsive web interfaces using HTML, CSS, and JavaScript
- Optimized front-end performance, reducing average page load time by approximately 20%
- Conducted cross-browser and cross-device testing across 5+ browsers, achieving 100% compatibility

Data Analyst Intern

Sep 2024 – Oct 2024

Edunet Foundation (Remote)

- Analyzed datasets exceeding 10,000 records to extract actionable business insights
- Developed 5+ interactive Power BI dashboards for stakeholder reporting
- Optimized data collection workflows, increasing data accuracy by 15%

PROJECTS

TripMate AI — Multi-Agent AI Travel Planner

Python, FastAPI, LangGraph, LangChain, Groq LLM, PostgreSQL, Docker, Tavily API

- Architected a production-ready multi-agent system orchestrating specialized agents for flight research, hotel discovery, and itinerary generation

- Automated end-to-end trip planning through a LangGraph-based workflow, eliminating manual cross-platform travel searches
- Implemented persistent conversation memory with PostgreSQL and real-time travel intelligence via Tavily and AviationStack APIs

GitHub: github.com/Jasvanth-S/TripMate_AI

Smart Academic Assistance — Agentic RAG Telegram Bot

Python, FastAPI, LangChain, CrewAI, RAG, Docker, Llama 3

- Engineered a “Dual-Brain” RAG architecture prioritizing document-grounded answers from Google Drive with Llama 3 fallback for general knowledge
- Reduced document lookup time by 80% through a real-time conversational interface deployed on Telegram
- Containerized the system with Docker for reliable, scalable production deployment

GitHub: github.com/Jasvanth-S/Smart_Academic_Assistance

EasyML — No-Code Machine Learning Platform

Python, Flask, Scikit-learn, Pandas, NumPy, Matplotlib, Render

- Built an end-to-end web application enabling data cleaning, model selection, visualization, and real-time prediction without notebooks
- Simplified the ML pipeline into an accessible no-code interface, enabling non-technical users to train models within minutes
- Presented the platform at Smart India Hackathon prelims and deployed it live on Render

GitHub: github.com/Jasvanth-S/EasyML

Heart Disease Prediction Model

Python, Streamlit, Scikit-learn, Pandas, NumPy, Matplotlib

- Developed a machine learning application predicting heart disease risk from clinical and lifestyle data
- Delivered accurate, interpretable predictions through a Streamlit interface with clear data visualizations

GitHub: github.com/Jasvanth-S/Heart_Disease_Prediction

FREELANCE & CLIENT ENGAGEMENTS

- **3D Print with Sruthi** — Designed and developed a full-stack e-commerce platform (Next.js, Tailwind CSS) with role-based authentication and Cashfree payment integration
- **KeyMart Global** — Developed automated account-creation and status-tracking pages integrated with WhatsApp automation, reducing manual order processing
- **Loga Guest House** — Engineered a full-stack guest house booking platform with an admin management dashboard, reservation automation, and SEO-optimized architecture to streamline operations and enhance booking visibility.

EDUCATION

Bachelor of Technology — Artificial Intelligence and Data Science

2023 – 2027

Arjun College of Technology, Anna University — Coimbatore, Tamil Nadu | CGPA: 8.21

- Delivered a comprehensive capstone AI solution demonstrating end-to-end design, development, and deployment of intelligent systems
- Led technology-driven initiatives, organizing workshops and technical sessions that fostered a culture of innovation

CERTIFICATIONS

- Associate AI Engineer for Data Scientist – *DataCamp* (2026)
- Gen AI Engineering Mastermind — *Outskill* (2026)
- AI Agents Intensive Course with Google — *Google, Kaggle Credential* (2025)
- Oracle Certified Foundations Associate — *Oracle University* (2025)
- Master in Data Science to Become a Data Scientist — *Udemy* (2025)
- Green Skills and AI Foundation — *Edunet Foundation, Skills4Future* (2024)

ACHIEVEMENTS

- Top 23 National Finalist — TNFS National Technical Paper Presentation, VIT Chennai (2026); presented “SmartFire,” an AI-based fire-station location optimization system
- Presented “EasyML – Democratizing AI for Everyone” at Smart India Hackathon (SIH) Prelims (2025)
- Presented “The Role of Data Science in Industry 4.0 Manufacturing” at ZARAK 2K25, HCAS (2025)
